Conference includes:

Companion Animal,

Practice Management,

Food, Equine, Avian & Exotics

"It was great being with all the different vets, nurses, and SVS staff. Gave great insight to the Veterinary industry in another country. Loved checking out America, and the Conference."

"Loved the trip, great people, great organisation. Fab cities to see and of course Vegas."

"The most beneficial thing (for me) was being around people within the industry away from their businesses with boxing gloves off! We are extremely competitive and secretive in our industry and it was nice to meet people and realise that we are all human out of work!"

"An awesome trip with so many opportunities for education of all kinds! I really enjoyed the trip and got a huge amount out of it, both from a CE and personal point of view."
